Community Economic Development

## Community Development Newsletter

*The United Nations* has set an ambitious goal of ending extreme poverty and achieving zero hunger by the year 2030. In this month's newsletter articles examine "what's wrong" and "what's right" with international Aid. The Poverty Inc. documentary (on NetFlix) explains how Aide can provide more harm than good. *A short history* is an overview of a five year project which has emerged as a gold standard for microcredit related community development. Find out, in the article how one million dollars for microcredit and economic development has helped thousands in Honduras. *Education Finance* is a working model of microcredit funding a school, in some cases where education is the most risky, amongst the poorest of the poor. *Post Convention Summit* To bring greater focus to what Rotarians can do to achieve the UN's Sustainable Development Goals there will be a post Toronto Convention Summit on Thursday 28 June 2018.

Please save the date & plan to attend.

Community relationships are critical in developing countries where the Social Safety Net is often minimal.
